RESPOND is an EU funded Horizon 2020 project, which aims to understand the governance of mass migration in Europe and beyond. RESPOND generated a new dataset drawn from research in 11 countries with the collaboration of 14 consortium members. As a part of RESPOND, the research in Turkey was conducted in four cities (Istanbul, Izmir, Şanlıurfa and Ankara) with 81 semi-structured meso-level and 104 micro-level interviews. It focuses on four sub-areas namely border management, protection, reception and integration. This presentation will reflect the main findings of RESPOND Project, and in particular in Turkey.
